

A dark blue background featuring a glowing blue circuit board pattern overlaid on a semi-transparent image of a car's side profile, including the front wheel and door.

PCB solutions for Automotive & Transportation

Nemco has established its reputation as a trusted supplier to many leading UK OEMs and partners for specialist components to the automotive and transportation sectors. We understand the importance of maintaining the highest standards of service, quality and delivery.

A trusted outsourcing partner for automotive and transportation

Nemco has a long-standing reputation as a trusted partner for businesses in the automotive and transportation sectors. For years, we have been providing comprehensive solutions to companies in these industries looking for specialist products. Our approach is centred around collaborating with our customers, understanding their specific needs, and delivering tailored solutions that help them achieve their objectives – including prototyping products and bespoke testing solutions where required. Our state-of-the-art facilities enable our specialist staff to work to their highest potentials, while also allowing us to push continuous improvement in our processes.

Delivering excellence as standard

Our expertise is providing a full PCB manufacturing and assembly service, from prototype development through to full volume production, testing and box build. We understand the importance of delivering quality products to market efficiently and on-time, working in partnership with our clients throughout the development and manufacturing process.

World leading **customer service**

Nemco is committed to providing the best possible service to customers in the automotive and transportation sectors. We are proud of our history of working closely with businesses to produce components for use in complex projects. Nemco is a leading contract electronics manufacturer that is relied upon worldwide. With ISOs 14001 and 9001, we are certified to deliver top quality while also achieving status for our environmental management. In addition, we meet AS9100 standards which certifies Nemco for use in aerospace products.

Transform your supply chain **with Nemco**

If you are in the automotive or transportation sector, and are looking for comprehensive PCB solutions provider, look no further than Nemco. With Nemco, you'll be working with a customer-focused company that is dedicated to continuous improvement in both its staff, processes and technology. Get in touch with us today and see how we can transform your supply chain through our expert staff and comprehensive solutions.

Concept to Production Electronics since 1985

The **Nemco** difference

Our vision is to provide world class products and service, supporting multiple industries, helping them to grow and be more profitable and efficient.
