

CONCEPT TO PRODUCTION

electronics

Complete PCB solutions, from prototyping and assembly to
volume production and supply chain management.

Contract electronics solutions since 1985

Nemco is a full-service Contract Electronics Manufacturer; our outsourcing service offers a seamless bridge between your orders and our production-line and supply chain management. We are trusted by many leading OEMs to support and manage their production, thereby reducing lead-times, increasing capabilities and most importantly, increasing profit and growth.

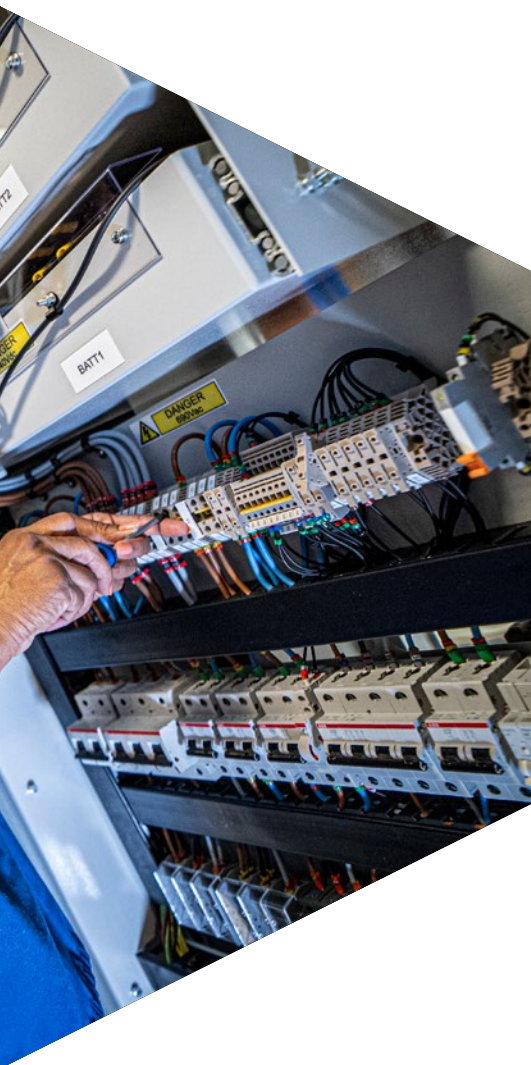

Extending your business with our expertise and capability is available through a simple flexible agreement to suit your customer demands. Outsourcing through Nemco negates any fixed overheads, recruitment requirements or investment.

"For 40 years, Nemco have established a reputation for quality, expertise, integrity and customer service.

We continuously invest in our people and our capabilities to ensure we remain at the forefront of innovation and service long into the future."

Dave Pearce
MANAGING DIRECTOR

Capabilities

Nemco are a complete contract electronics manufacturer, offering an experienced and fully training IPC team to support and manage your complete manufacturing journey from consultation through to delivery. From the first contact, Nemco will help and advise you on the best production route to ensure the right quality is achieved using the most efficient and profitable methods.

- ▶ Experienced and fully trained IPC team
- ▶ ISO/IEC 80079-34:2011 compliant
- ▶ 60,000 sq. ft state-of-the art manufacturing plant
- ▶ EN/AS 9100, ISO 9001 and ISO 14001 approved

Outsourcing services

Our engineering team can advise on design for test and manufacture, offer flexible and cost-effective prototyping which provides the most effective PCB manufacturing. Nemco also offer protective conformal coating, cleanroom facilities, wiring loom and harness production as well as complete product assembly and box build, all tested and quality controlled throughout.

- ▶ Design for manufacture
- ▶ Prototyping & 3D printing
- ▶ SMT & conventional PCB manufacture
- ▶ Automated and manual inspection utilising state-of-the-art inline 3D AOI
- ▶ Conformal coating
- ▶ Wiring looms and harnesses
- ▶ Assembly & box building
- ▶ After sales support
- ▶ Supply chain solutions

World-class customer service

Nemco are always committed to delivering excellent customer service, providing a single point of contact throughout the production process. Our experienced customer service team are the face of Nemco and are highly knowledgeable in all of our processes, working tirelessly to ensure we deliver on our promises.

"For over 30 years Nemco have been our production partner of choice. They manage our supply chain from start to finish with excellent customer service and engineering support for both repeat orders and the speedy introduction of new designs."

Ian Keen

GENERAL MANAGER
CHURCHILL CONTROLS LTD.

Specialist sectors

Nemco are trusted by world leading OEMs and engineering companies in a multitude of sensitive electronics sectors.

Our values

Nemco always endeavours to understand and exceed customer expectations. We achieve this by monitoring customer satisfaction, preventing defects, providing quality to the highest standards and continually improving processes, whilst maintaining on-time delivery.

Commitment

We deliver on our commitments valuing open, long-term relationships with our employees, community, customers and suppliers.

Respect

We treat everyone equally with compassion and respect understanding the importance of all points of view.

Versatility

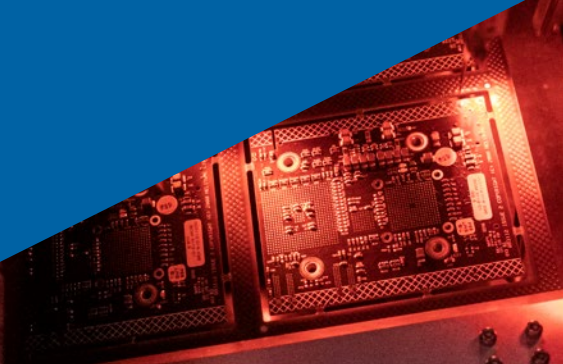

We are versatile and can adapt to ever changing needs.

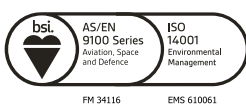

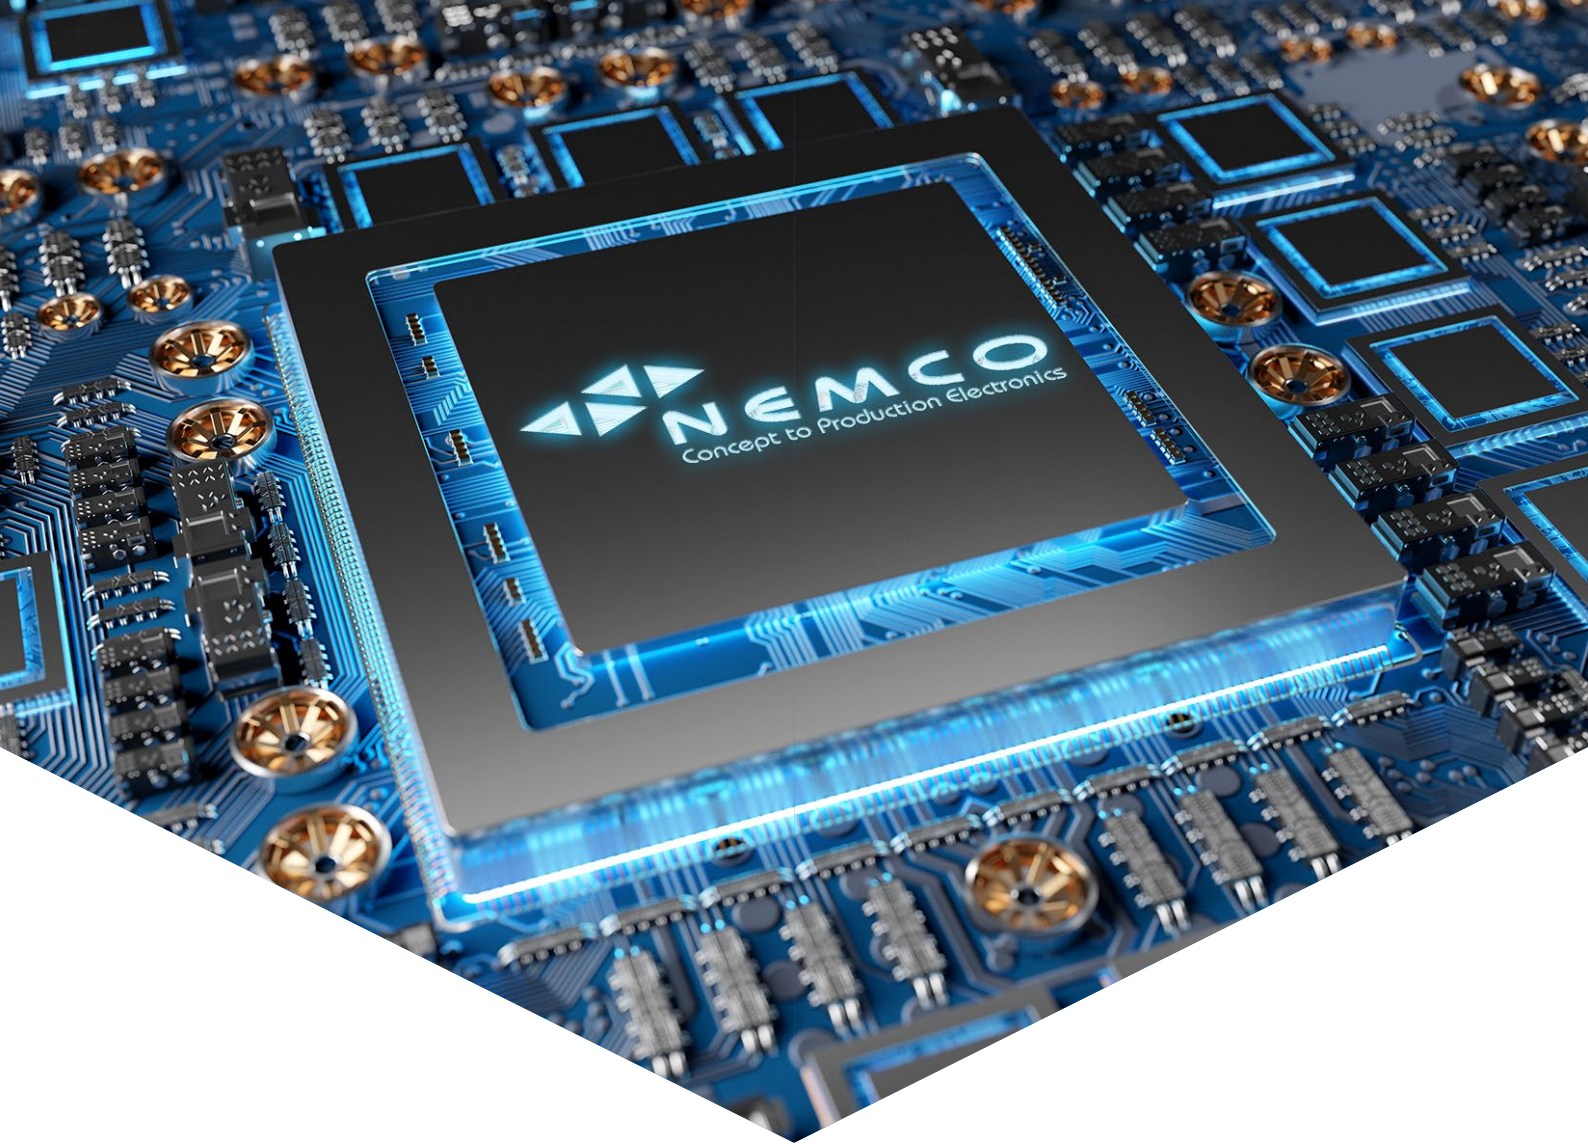

Excellence

We strive for excellence as one united team and as individuals.

Integrity

We value openness, honesty and transparency in everything we do.
